

Ujjwal Dawadi

Profile

Passionate about technology and problem-solving, with a strong interest in data, web development, and real-world applications of IT. I enjoy learning new tools, improving my coding skills, and applying what I learn to build practical projects. Known for being a quick learner, detail-oriented, and motivated to keep growing both personally and professionally. I'm always looking for ways to turn ideas into practical solutions.

Education

Bachelor of Science in Information Technology

London Metropolitan University, UK
2021– 2024

Higher Secondary Education (Science)

Motherland Secondary School, Nepal
2018 – 2020

Work Experience

Web Developer Intern

Skybase Innovations Pvt. Ltd.

Nov 30, 2023 – Mar 3, 2024

- Developed responsive user interfaces using React.js and Tailwind CSS.
- Built backend APIs with Node.js and Express.js.
- Used Git for version control and collaborated in team-based development.

Projects

Online Learning platform

- Built a responsive web app using React.js, JavaScript (ES6+), and CSS.
- Created backend with Node.js and Express.js for course and user management.
- Integrated Firebase for real-time database, and Axios for API calls.

Cafe Management System

- Built a café system using ASP.NET and C#.
- Designed UI with HTML and CSS.
- Handled backend logic, form validations, and data operations within the .NET framework.

AI chatbot

- Built a simple chatbot using Python, applying basic AI techniques.
- Implemented tokenization, pattern matching, and intent recognition for understanding user input.
- Used guided learning, context management, and response generation to improve conversational flow.
